## **I. PURPOSE**

---

The purpose of this Assistance Guide is to connect New Jersey residents affected by Hurricane Irene. The Guide lists information on many programs and agencies. Updates and verification are on-going. Updates are available at [www.nj211.org](http://www.nj211.org).

The Guide is arranged in sections based on needs and the types of services provided. Where applicable there are tables arranged to show help available statewide and within the counties. Phone numbers and specific information regarding service eligibility, hours etc. may also be outlined.

You are welcome to call "2-1-1" 24 hours a day, seven days a week for help in finding available disaster assistance services. Language translation and TTY services are offered to any caller. You can also visit [www.nj211.org](http://www.nj211.org) to review the flood resource section, search the database of services in your local community or to chat live with an experienced community resource specialist. 2-1-1 will help identify with you the best local resources to fit your individual needs after a disaster or for life's everyday situations.

Emotional support for people affected by disasters or other overwhelming events is available by calling New Jersey Mental Health Cares' Disaster Mental Health Helpline (877) 294-HELP (4357), where experienced crisis counselors can be reached. A TTY line is also available at (877) 294-4356. The line is staffed from 9:00 AM – 5:00 PM weekdays. You may leave a message at other times and a mental health professional will return your call.

## II. GETTING STARTED

---

### **Governor Christie Declares State of Emergency**

On August 25, 2011 Governor Christie signed an executive order declaring a state of emergency in anticipation of severe weather conditions throughout the state as a result of Hurricane Irene.

By declaring a state of emergency the Governor has broadened the power of the NJ State Police including traffic control, limiting access to areas affected by the storm, and the ability to issue evacuation orders. This declaration gives the NJ Office of Emergency Management the ability to mobilize and deploy resources throughout the state including NJ State Police, NJ Department of Military and Veterans Affairs, NJ Department of Environmental Protection and NJ Department of Transportation, as well as county and municipal emergency management officials in impacted areas throughout the state.

### **President Obama Signs Disaster Declaration**

**On August 31<sup>st</sup> President Obama issued a Presidential Disaster Declaration for the State of New Jersey (FEMA-4021-DR) due to damage caused by Hurricane Irene. While** the President's action originally made federal funding available for a limited number of counties in New Jersey, the declaration was extended on September 4<sup>th</sup> and now includes all counties in the state. This declaration makes **federal funding available to affected individuals throughout New Jersey. Federal funding will also be available to state and eligible local governments and certain private nonprofit organizations** on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by Hurricane Irene.

### **Insurance Claims**

**If your home has suffered damage, call the agent who handles your insurance to file a claim. If you have suffered damage related to flooding conditions and do not know if you have flood insurance, you can call the National Flood Insurance Program at 1-800-638-6620 to confirm your current flood insurance and to find out where to submit your claim.** If you are unable to stay at home, make sure to say where you can be reached. To make filing your claim easier, take photos of the house and save damaged personal property. If necessary, place these items outside the home. An insurance adjuster will need to see what is damaged in order to process your claim. If FEMA assistance is available to you because you live in the area included in the declaration you are expected to contact your insurance company first. FEMA may only help with damage not covered by your insurance policy. **The filing deadline for FEMA's National Flood Insurance Program is October 31, 2011.**

## **Disaster Recovery Centers**

Disaster Recovery Centers (DRCs) are opening to assist individuals, households and businesses affected by Hurricane Irene. DRCs are planned for all designated counties and openings will be announced as arrangements are finalized. Each DRC will be staffed with Federal Emergency Management Agency (FEMA), U.S. Small Business Administration and state agency disaster recovery specialists who are ready to help survivors through the process.

Residents are encouraged to register with FEMA **before** visiting a center. Through a partnership with State and Municipal governments, DRCs are providing the disaster survivors an opportunity to talk with experienced personnel about: disaster assistance, low interest rate federal disaster loans, disaster crisis counseling, voluntary agencies disaster assistance available and preventive measures to mitigate damages to property and life.

When a disaster survivor visits a DRC, they will be greeted by a FEMA employee who will ensure the survivor has registered with FEMA before speaking to the organizations available in the DRC. This is why is important for survivors to register with FEMA before they arrive to the center.

### **At the Disaster Recovery Center, visitors can expect to:**

- Receive information about different types of state and federal disaster assistance.
- Get help completing low-interest loan applications from the U.S. Small Business Administration (SBA) for homeowners, renters and business owners.
- Inquire about the status of applications for federal assistance.
- Clarification of any written correspondence received
- Possibly receive referrals to voluntary agencies to help with immediate unmet needs.
- Learn cost-effective mitigation measures to reduce the impact of future disasters.

See the following pages for a complete listing of DRC locations and hours. Centers are currently open from 10 AM to 6 PM Monday through Saturday unless otherwise noted. To check locations online, FEMA has also established a [DRC Locator](http://asd.fema.gov/inter/locator/home.htm).

## **FEMA Assistance Programs**

**Individual Assistance** is disaster assistance directed to families, individuals and businesses within a declared disaster area. Assistance can include grants for temporary housing and home repairs, low-cost loans to cover uninsured property losses, and other programs to help individuals and business owners recover from the effects of the disaster. Specific information on what is covered under individual assistance is available [here](http://www.fema.gov/assistance/process/assistance.shtm). [http://www.fema.gov/assistance/process/assistance.shtm]

**Public Assistance** provides assistance to states, local governments, and certain non-profit organizations for emergency work and the repair or replacement of disaster-damaged facilities. More information is available [here](http://www.fema.gov/government/grant/pa/index.shtm). [http://www.fema.gov/government/grant/pa/index.shtm]

Applicant briefing sessions are being held from September 12 – September 15 in counties throughout New Jersey to help agency professionals get answers to questions about the application process. [Access a listing of meeting locations.](http://www.ready.nj.gov/plan/pdf/090711_dr4021_schedule.PDF) [http://www.ready.nj.gov/plan/pdf/090711\_dr4021\_schedule.PDF]  
[Access Hurricane Irene Public Assistance Material and Forms](http://www.ready.nj.gov/plan/public-assist.html) [http://www.ready.nj.gov/plan/public-assist.html]

**Hazard Mitigation Grant Program** which provides assistance to State and local governments and certain private, nonprofit organizations for actions taken to prevent or reduce long term risk to life and property from natural hazards, is available to all counties in the State of New Jersey. All are eligible to apply for assistance under the Hazard Mitigation Grant Program.

### **Filing for FEMA Assistance**

**If you have been impacted by the recent storm you must first register with FEMA to get assistance! The filing deadline for FEMA Individual Assistance has been extended to November 30, 2011.**

You may [apply online](http://www.disasterassistance.gov/daip_en.portal) [http://www.disasterassistance.gov/daip\_en.portal] and or by calling 1-800-621-3362; TTY users can call 1-800-462-7585. The call takes about 20 minutes. If call volume is high, you may have trouble getting through. In that case it is recommended that you call during off-hours (after 5:00 PM and before 8:00 AM.) The system is automated. Please have a pen and paper ready whether you file on the phone or online. You will also need the following information:

- Five Digit Zip Code
- Current Contact Telephone Number
- Social Security Number
- Current Mailing Address and Address of Damaged Property
- Date the Damage Occurred
- Directions to the Property
- Brief Description of Damaged Property
- Insurance Information and Policy Number(s)
- Family Gross Income
- A Bank Routing Number if you want funds deposited directly to your bank account. Lookup your bank routing number online here.

*Note: FEMA verifies the name and social security number of those registering for disaster assistance. If the name and social security number on file with the Social Security Administration does not match the information you provide, you will be asked to submit a copy of an original document, e.g. marriage license, military ID, tax documents, etc., for proof of identity. A need to review and update identity documentation may cause delays in delivery of assistance.*

**Be sure to get a FEMA application number.** After you've completed your application for assistance, you will receive a FEMA application number. **Write down this number and keep it for future reference.** If you do not have a FEMA Registration Number,

you will not receive services. You can also use the number for identification at banks, airlines, etc. if your identification has been destroyed.

**Ask for help in filing if you need to.** If you or someone you know needs help filling out a FEMA application due to age or disability, help is available by calling NJ Ease at 1-877-222-3737.

### **FEMA Assistance for Immigrant Families**

FEMA helps the Household - the Family. If anyone in the family qualifies (eg. a child born in the United States, or a father with a green card), then the FAMILY qualifies for FEMA help.

### **FEMA Outreach Efforts Continue**

Residents of the affected Counties who have made application for Federal Assistance or who plan on making application for federal assistance will be contacted by fully credentialed Inspectors to schedule an appointment to inspect damage and to determine eligibility for any funded programs. The New Jersey Office of Emergency Management has established Community Relations teams with our FEMA partners. These teams will be visiting the affected areas of the State to conduct further outreach to those residents who may be eligible and may be in need of assistance due to the most recent disaster.

### **After Applying for FEMA Assistance**

Inspectors contracted by the Federal Emergency Management Agency are contacting New Jersey residents who have applied for disaster assistance. These inspectors have approved FEMA identification badges that include the inspectors name and photo, and the name of the company under contract with FEMA. They will ask for information to verify your name and address and registration with FEMA. **They will NOT ask for a Social Security number nor ask to be paid for the inspection. The FEMA inspection is FREE, so beware of fraudulent individuals attempting to charge for an inspection.**

The inspection generally takes 30 - 40 minutes, during which the inspector will assess disaster-related damage for both real and personal property and may take photos of the interior and exterior of the damaged dwelling. The inspector will then enter damage-related information into a handheld computer and send that data electronically to FEMA. The inspector does not determine whether a registrant is eligible for assistance, or the amount of a FEMA grant the individual may receive.

The inspector will ask the applicant to sign a form authorizing FEMA to verify that the information given is accurate. Within about 10 days a letter will be sent by FEMA to the applicant with notification about the decision of whether the applicant is eligible for help. If you are eligible, that letter will be followed by a check (or there will be an electronic transfer to the appropriate bank account). The letter will explain what the money can be used to pay for, and applicants should be careful to use the funds as indicated.

## **What to do if FEMA Assistance is Denied**

A denial letter does not necessarily mean that an applicant is ineligible for assistance. It may mean that the information provided is incomplete. Make sure that you have submitted sufficient documentation of identity, ownership, and disaster damage. Complete and return the U. S. Small Business Administration loan application as this is an essential part of the recovery process as well. A letter from FEMA that states you have been denied assistance because you are "INS-insured" is an indication that there is an insurance issue. Call the FEMA helpline to update insurance information as soon as it becomes available.

For more information on how to appeal a denial letter stating that you are ineligible for disaster assistance click [here](http://www.fema.gov/assistance/process/case_review.shtm) [http://www.fema.gov/assistance/process/case\_review.shtm] and read about the process that must be followed to appeal this decision from FEMA. Applicants have 60 days from the date of their determination letter to appeal the FEMA decision. All appeals must be in writing and should include the disaster identification registration number.

The appeal should include new or missing information, documents and damage repair estimates that support the appeal request.

### Mail appeals to:

National Processing Service Center  
PO Box 10055  
Hyattsville, MD 20782-8055

### **III. IMMEDIATE ASSISTANCE**

---

The American Red Cross and the Salvation Army are considered First Responders in an emergency. Necessities such as shelter, food, clothing, or cleaning materials can often be obtained from these organizations. ## **Assistance for Homeless Veterans**

The Department of Housing and Urban Development and VA Supported Housing (HUD-VASH) Program provides permanent housing and ongoing case management treatment services for homeless Veterans who require these supports to live independently. This program allows Veterans and their families to live in Veteran-selected apartment units. This program provides for the most vulnerable Veterans, and is especially helpful to Veterans with families, women Veterans, recently returning Veterans and Veterans with disabilities. [Learn more about HUD-VASH](http://www.va.gov/HOMELESS/HUD-VASH_Eligibility.asp). [http://www.va.gov/HOMELESS/HUD-VASH\_Eligibility.asp]

Please Remember Your Pets: If you are ever evacuated, you need to bring your pets with you. Some shelters are pet friendly, but many are not. Additionally, some counties have deployed their County Animal Response Team to shelter animals. The NJ Department of Agriculture recommends that you ask a dependable friend or relative who lives some distance from the evacuation area if you and your pets can stay with them until the all clear is given.

An alternative is to find a pet friendly motel. Following are links to websites that can help you do just that.

## **Health Concerns**

In response to general health concerns in the aftermath of Hurricane Irene, the Department of Health and Senior Services opened a toll-free Public Health Call Center to provide callers with information about prevention and treatment of mold, disposal of spoiled food due to power outages and water concerns.

The call center is being staffed by health experts from the Department's Division of Epidemiology, Environmental and Occupational Health who can answer questions about prevention/treatment of mold growth in flooded homes and businesses, disposal of food spoiled as a result of power outages and concerns about water that needs to be treated to make it safe for drinking and other uses.

The DHSS Call Center will be open from 8 am to 5 pm. The number for the call center is 609-826-4920.

Additional information about hurricane and flood recovery is available at [www.state.nj.us/health/er/natural.shtml](http://www.state.nj.us/health/er/natural.shtml).

## **Business Recovery Assistance Services**

To support the recovery of New Jersey's businesses a series of business assistance services for those affected by the storm is now available. Information for all services may be accessed through [New Jersey's Business Action Center](http://www.nj.gov/njbusiness) (BAC), by calling 1-866-534-7789 or through their website. [http://www.nj.gov/njbusiness].

The business recovery assistance services are designed to support businesses and workers who may be temporarily unable to perform their jobs due to the storm. These services include:

- Access to lines of credit of up to \$500,000 for businesses that need access to cash to improve their damaged property while awaiting insurance proceeds;
- Grant awards for businesses to assist with on-the-job training costs for new workers hired specifically to assist in disaster-related activities, such as landscaping and tree removal, construction, insurance claims, building supplies sales, materials transport, utility work, call and claims centers staffing, and infrastructure clearing and repair.
- Availability of the Business Resource Centers at any of the 17 local One-Stop Career Centers across the state as temporary hubs for businesses to access telephone and internet services as well as for job seekers and displaced workers seeking workforce development and unemployment assistance.
- The availability of Disaster Unemployment Benefits to provide income security for those displaced workers suffering temporary storm-related job loss.
- Dispatch of Rapid Response team members to identified Disaster Recovery Centers to assist displaced workers
- Availability of services through New Jersey Youth Corps to assist non-profit, public and governmental entities in a variety of ways for disaster relief and clean-up.

In addition, BAC's Business Call Center is also the one-stop resource for more information on how to get businesses back up and running. The Call Center staff can assist with the following services:

- Arranging business facility inspections for buildings suffering major flood damage, as such conditions require structural integrity inspections before utility service can be restored. These inspections are handled in local code enforcement offices and by local code enforcement officials. Anticipating an enormous increase in such work, the Department of Community Affairs has mobilized all qualified personnel to assist local governments in this effort.
- Advocate for businesses seeking assistance from local utilities to restore electric, phone, gas and water services.
- Advocate with insurance carriers to file and expedite claims.
- Provide information on how to qualify for federal recovery assistance, and
- Connect businesses to the other county and local business services and to the services offered by the Small Business Administration and Small Business Development Centers that include assistance with insurance claims, as well as loans and business plan revisions.

### **Your Rights as a Renter**

#### **Rent Abatement and Security Deposits**

If you are a tenant and you have been displaced as a result of the storm, you may be entitled to a return of part of the rent you paid if you are unable to live in your home during that period of time. You also may not have to pay your rent for the months after that if you are not able to go back into your apartment. Finally, if you are able to return to your apartment, but it is not completely habitable, you may not have to pay all the rent

Your displacement due to this natural disaster, may also entitle you to have your security deposit returned quickly. A landlord must return your security deposit within five business days if:

- The displacement is caused by fire, flood, condemnation or evacuation; and
- An authorized public official posts the premises with a notice prohibiting occupancy, or
- A building inspector has certified within 48 hours that displacement is expected to continue longer than seven days and has so notified the owner in writing.

### **Caring for Pets**

Once you and your pets return to your home, be careful about allowing your pets outdoors unattended and off-leash. The floods may have altered familiar scents and landmarks and your pet could easily get confused and become lost.

In addition, sharp objects, downed electric lines, fallen trees and other debris, or contaminated water could present a real danger to your pet. Raccoons, skunks or other wild animals may have entered the area and could also present a danger to your pets.

If any animals are lost during the disaster, contact veterinarians, humane societies, pet shelters, and other facilities that might house animals. Be prepared to identify and document ownership when claiming lost livestock. The United States Department of Agriculture Missing Pet Network at [www.missingpet.net](http://www.missingpet.net) may be of assistance.

### **Caring for Farm Animals**

Many areas lost power for days as a result of the storm. If you are a farmer with herds of animals and are experiencing difficulties getting adequate food or water for your herds as a result of this disaster event contact your County Office of Emergency Management for assistance in solving the issue on a local level. County Animal Response Teams (CARTs) may have resources and/or connections to assist the farmers.

If you or someone you know has an agricultural or animal care issue related to the storm you may also contact New Jersey Department of Agriculture at the office in Trenton 609-292-3965. For more information, go to:

### **Disaster Assessment**

The Red Cross Disaster Assessment teams are working in the areas where flood waters have receded to identify damage and the needs of the community.

### **Clean-Up Resources**

Stations are now set up in local areas that will distribute food and clean-up kits. Mobile clean-up distribution units are also going into areas affected by the flood to distribute materials.

To access helpful information about flood clean-up tips go to Section VI of this Guide, *Returning Home and Clean-Up*. Here you will find links to clean-up booklets with step-by-step instructions as well as videos that will demonstrate clean-up methods.

NJ 2-1-1 is one of many organizations involved in assisting people who are unable to manage clean-up efforts independently. In order to assure a coordinated and responsible clean-up effort many organizations must work together. A plan is now in place and NJ 2-1-1 was registering people in need of assistance. Now people are being asked to contact World Cares directly at 800-903-1417 or by e-mail at [njcleanup@worldcares.org](mailto:njcleanup@worldcares.org).

If you need assistance and have registered with 2-1-1 please contact us if you decide to make other arrangements so that we can notify the volunteer groups who will then be free to assist others. Remember, flood waters must recede before clean-up can begin and there are many people who have been affected by this storm so you may have to wait for assistance.

### **Drinking Water Precautions**

Power outages often occur in many municipalities as a result of storm waters. Public Water Utilities in these areas recommend specific safety precautions be taken to be sure that the water is safe for drinking, cooking, bathing and washing. To find out what is recommended in your area, contact your local municipality or call your water company.

### **BOIL WATER ADVISORIES IN EFFECT AS OF 9.5.11 AT 11AM**

None noted in most recent report received from area water companies.

**If you get your water from a private well**, flush the well until the water is clear and free of sediment. To do this, attach a hose to an outside spigot and turn the water on. After the water is clear, then test the well for coliform bacteria. Do not drink the water until it has been tested if your well was under floodwater or if the water was dirty or cloudy when you turned it on.

Use bottled or boiled water until the testing can be done. To properly boil water, bring water to a rolling boil and hold it there for one minute. Let it cool and use as needed for drinking, cooking, brushing teeth, washing hands and for your pets.

Call your [local health department](#) for information on disinfecting private wells.

### **Debris Removal**

Call your local municipality to find out what is being done to collect debris in your area.

### **Flood Water Clean-up Tips**

This booklet was published by the North Dakota State University Extension Service and as such includes local resource information that does not apply to residents of New Jersey but all other information in the booklet will prove quite useful.

### **Inside the Home**

- Keep children and pets out of the affected area until cleanup has been completed.
- Wear rubber boots, rubber gloves, and goggles during cleanup of affected area.
- Remove and discard items that cannot be washed and disinfected (such as, mattresses, carpeting, carpet padding, rugs, upholstered furniture, cosmetics, stuffed animals, baby toys, pillows, foam-rubber items, books, wall coverings, and most paper products).
- Remove and discard drywall and insulation that has been contaminated with sewage or flood waters.
- Thoroughly clean all hard surfaces (such as flooring, concrete, molding, wood and metal furniture, countertops, appliances, sinks, and other plumbing fixtures) with hot water and laundry or dish detergent.
- Help the drying process by using fans, air conditioning units, and dehumidifiers.
- After completing the cleanup, wash your hands with soap and water. Use water that has been boiled for 1 minute (allow the water to cool before washing your hands).
- Or you may use water that has been disinfected for personal hygiene use (solution of 1/8 teaspoon of household bleach per 1 gallon of water). Let it stand for 30 minutes. If the water is cloudy, use a solution of 1/4 teaspoon of household bleach per 1 gallon of water.
- Wash all clothes worn during the cleanup in hot water and detergent. These clothes should be washed separately from uncontaminated clothes and linens.
- Wash clothes contaminated with flood or sewage water in hot water and detergent. It is recommended that a laundromat be used for washing large quantities of clothes and linens until your onsite waste-water system has been professionally inspected and serviced.
- Seek immediate medical attention if you become injured or ill.

## **Mold**

**Para informacion en Espanol, favor visitar el sitio de internet**

**<http://www.bt.cdc.gov/disasters/mold/es/moldprotection.asp>**

Mold in a damaged home can create serious health problems for residents following severe storms and flooding FEMA officials warn.

Mold flourishes in moist environments in water-damaged homes. It often appears as a fuzzy growth or a discoloration of surfaces, and may be accompanied by a musty, earthy odor or a foul stench. Residents are advised to use care when cleaning up the mold. If there are signs of mold growth in your home before you do anything about it you must decide who is best equipped to do the clean-up. This depends on a number of factors.

One consideration is the size of the mold problem. If the moldy area is less than about 10 square feet (roughly, less than a 3 ft. by 3 ft. patch), in most cases, you can handle the job yourself, following the guidelines below. If there has been a lot of water damage, and/or mold growth covers more than 10 square feet you may want to consult with a professional cleaning service. Who should do the cleanup depends on a number of factors. One consideration is the size of the mold problem. If the moldy area is less than about 10 square feet (roughly, less than a 3 ft. by 3 ft. patch), in most cases, you can handle the job yourself, following the guidelines below. However:

- If there has been a lot of water damage, and/or mold growth covers more than 10 square feet you may want to consult with a professional cleaning service.
- If you choose to hire a contractor (or other professional service provider) to do the cleanup, make sure the contractor has experience cleaning up mold. Check references and ask the contractor to follow the recommendations in EPA's [Mold Remediation in Schools and Commercial Buildings](#), the guidelines of the American Conference of Governmental Industrial Hygienists (ACGIH), or other guidelines from professional or government organizations.
- If you suspect that the heating/ventilation/air conditioning (HVAC) system may be contaminated with mold (it is part of an identified moisture problem, for instance, or there is mold near the intake to the system), consult EPA's guide [Should You Have the Air Ducts in Your Home Cleaned?](#) before taking further action. Do not run the HVAC system if you know or suspect that it is contaminated with mold - it could spread mold throughout the building.
- If the water and/or mold damage was caused by sewage or other contaminated water, then call in a professional who has experience cleaning and fixing buildings damaged by contaminated water. To access lists of consultants, laboratories, remediation firms and trade groups who provide various environmentally-related services click [here](#).  
[[http://www.state.nj.us/health/iep/mold\\_ta.shtml](http://www.state.nj.us/health/iep/mold_ta.shtml)]
- If you have health concerns, consult a health professional before starting cleanup.

### HAZARDS OF MOLD INFESTATION

- **Do not spend time in houses with mold.** Nasal stuffiness, throat irritation, coughing or wheezing, eye irritation, or, in some cases, skin irritation may occur.
- **People with mold allergies may have more severe reactions.** Immune-compromised people and people with chronic lung illnesses, such as obstructive lung disease, may get serious infections in their lungs when they are exposed to mold. These people should stay away from areas that are likely to have mold.

### Tips and Techniques to Remove Mold

The tips and techniques presented in this section will help you clean up your mold problem. Professional cleaners may use methods not covered in this publication. Please note that mold may cause staining and cosmetic damage. It may not be possible to clean an item so that its original appearance is restored.

#### **Before you begin**

Use fans at open windows or doors to dry a flooded residence, but be sure they blow outward, not inward, to avoid spreading the mold. Accelerate the drying process by using a dehumidifier to extract moisture from the air and the contents of your home. Do not use an air conditioning system until it has been checked by a professional. Using a system contaminated by mold will spread the mold throughout the house. Instead, open windows and doors to provide fresh air.

Discard porous materials such as carpet, mattresses, upholstered furniture insulation and ceiling tiles which are infected by mold. Wallboard, drywall and particle board are also porous and should be discarded. Workers should wear masks, protective eyewear and non-porous gloves while handling anything that is suspected of containing mold.

#### **Immediate actions you can take to remove mold:**

- Clean the area to remove, as much as possible, the mold and the material on which it is growing
- Clean with a non-ammonia detergent in hot water
- Scrub the entire area affected by the moisture
- Use a stiff brush or cleaning pad on block walls or uneven surfaces
- Rinse the area with clean water
- Thoroughly dry the area as quickly as possible
- Repeat cleaning as necessary to remove mold
- Disinfect with a 10% bleach solution (1 cup of bleach to 1 gallon of water), by applying a thin coat of bleach solution to the entire area, ensuring that the entire area is cleaned, not just the area where the moisture problem occurred. Use a sprayer or a sponge to apply the solution liberally, but avoid excessive amounts of runoff or standing pools
- Allow the area to dry naturally. Drying time is important for the disinfectant to be effective at killing mold and bacteria

## Further Advice

- **Never mix bleach and ammonia. The fumes are toxic!**
- Do not paint or caulk moldy surfaces. Clean up the mold and dry the surfaces before painting. Paint applied over moldy surfaces is likely to peel.
- If you are unsure about how to clean an item, or if the item is expensive or of sentimental value, you may wish to consult a specialist. Specialists in furniture repair, restoration, painting, art restoration and conservation, carpet and rug cleaning, water damage, and fire or water restoration are commonly listed in phone books. Be sure to ask for and check references. Look for specialists who are affiliated with professional organizations.

### **Beware of Scams**

- Don't become the victim of disaster-related scams. The following tips are provided by the NJ Division of Consumer Affairs.
- Before you begin making repairs to your home make sure that the professional you are about to hire is licensed to do the repair work.
- Ask to see identification before you let anyone who claims to be from a utility company inspect your home.
- Never give your credit card number or financial information to strangers over the phone or on the Internet.
- It is customary not to pay for the entire home improvement project in advance. Pay one-third beforehand, one-third halfway through and one-third upon completion.

## **VIII. INFORMATION ABOUT DONATIONS**

---

### **Verifying the credibility of an organization**

To verify the legitimacy of any organization you can check Charitable Registration Section of the [NJ Attorney General's Web site](http://www.njattorneygeneral.gov), [http://www.njconsumeraffairs.gov/ocp/charities.htm ] or call 973-504-6215.

### **Volunteer Your Services**

Agencies looking for volunteers may register their needs, and volunteers willing to assist in relief efforts, may search for opportunities at [VolunteerNewJersey.org](http://VolunteerNewJersey.org). This statewide database is maintained by The Association of New Jersey Volunteer Centers and the Governor's Office of Volunteerism. You can reach them by phone at (609) 633-9629 or (609) 775-5236.

### **Clean-up Services**

World Cares Center is acting as the liaison between NJ 211 and the organizations providing free flood cleanup services to those New Jersey residents in need. If you represent an organization that is providing free flood cleanup services, please contact World Cares Center at [njcleanup@worldcares.org](mailto:njcleanup@worldcares.org) or call 212-563-7570. For more information on the process, please visit <http://njcleanup.worldcares.org>

### **Other**

Call your local food bank or Red Cross Chapter to learn of other volunteer opportunities.

### **Donations Needed**

#### **Supplies and Monetary Donations**

Local food pantries are always in need of food. [Find a pantry near you](#).

First Responder organizations: [The American Red Cross](#) (accepting donations online and by phone at (800) 733-2767) and [The Salvation Army](#) (accepting donations online, by phone at (800) SAL-ARMY or by texting the word "storm" to 80888, which will send an automatic \$10 donation from mobile phones.)

NJ 2-1-1 as well as all of the organization listed in the local resources section of this guide are directing all of their staff efforts to assisting people in need throughout this disaster and throughout the year. All of these organizations are non-profit and could always use your support. Please donate to the organization of your choice if you can.

Flood victims in Denville are "desperately in need" of clothing store gift cards. Township officials are asking anyone who can donate to drop off gift cards to the Social Services Department located at 1 St. Mary's Place inside Town Hall.

**No clothing donations are being requested at this time.** Before beginning any sort of collection drive, it is important to first call a charitable agency and confirm that there

is a need for the donation and that they are able to accept it. **In general, organizations prefer monetary donations so that they can get the specific supplies they need.** The American Red Cross and the Salvation Army are urging the public to donate money, rather than goods, because damage from rising flood waters is making it difficult to store relief items where they are most needed.

### **Blood Needed**

Hurricane Irene's devastating effects are hitting New Jersey's blood banks and hospitals hard. Numerous blood drives had to be cancelled statewide.

People who want to schedule an appointment to donate blood or locate a blood drive can find a location near them by calling 1-800-Red Cross or visiting [www.redcrossblood.org/make-donation](http://www.redcrossblood.org/make-donation). Platelet donors are especially important for cancer patients. Platelet donors should call 1-215-451-4153 to make an appointment.

To find about other drives, or to donate blood in your area, call (973) 676-4700.

The New Jersey Workforce Coalition is asking all blood and platelet donors to contact your regional blood centers to see if you can schedule yourself to donate, or to start a life saving blood drive. To locate your regional blood center or for more information on how you can help during this critical time, please click here:
