Holiday and Healthcare Lists offer Help and Hope

November 1 marks the beginning of open enrollment for health insurance for the upcoming year. Since the passage of the Affordable Care Act, Americans are required to have health insurance. For coverage to start on January 1, you will need to apply by December 15.

If you or your clients or constituents have questions about what to do next, dial 211 or visit our [Affordable](#)

[Healthcare web page](#). Here you will find answers to some of the common questions asked about the application process as well as links to several other sites that were created to help the public sort out the details. We've also got a growing list of [local enrollment events](#), designed to provide people with individualized assistance with the process. This list will continue to grow as enrollment events become known to us. Know of an event that is not listed? Please [send](#) us the details.

Speaking of lists, take a look at all the giving that is happening in preparation for the holiday season. Every year we compile a listing of holiday meals (Thanksgiving and Christmas) and gift giving programs that are coordinated in every county of NJ to help people who are struggling. [See what is happening in your county](#).
