Housing

4.8 million referrals for help with housing or connections made to address housing insecurity and homelessness
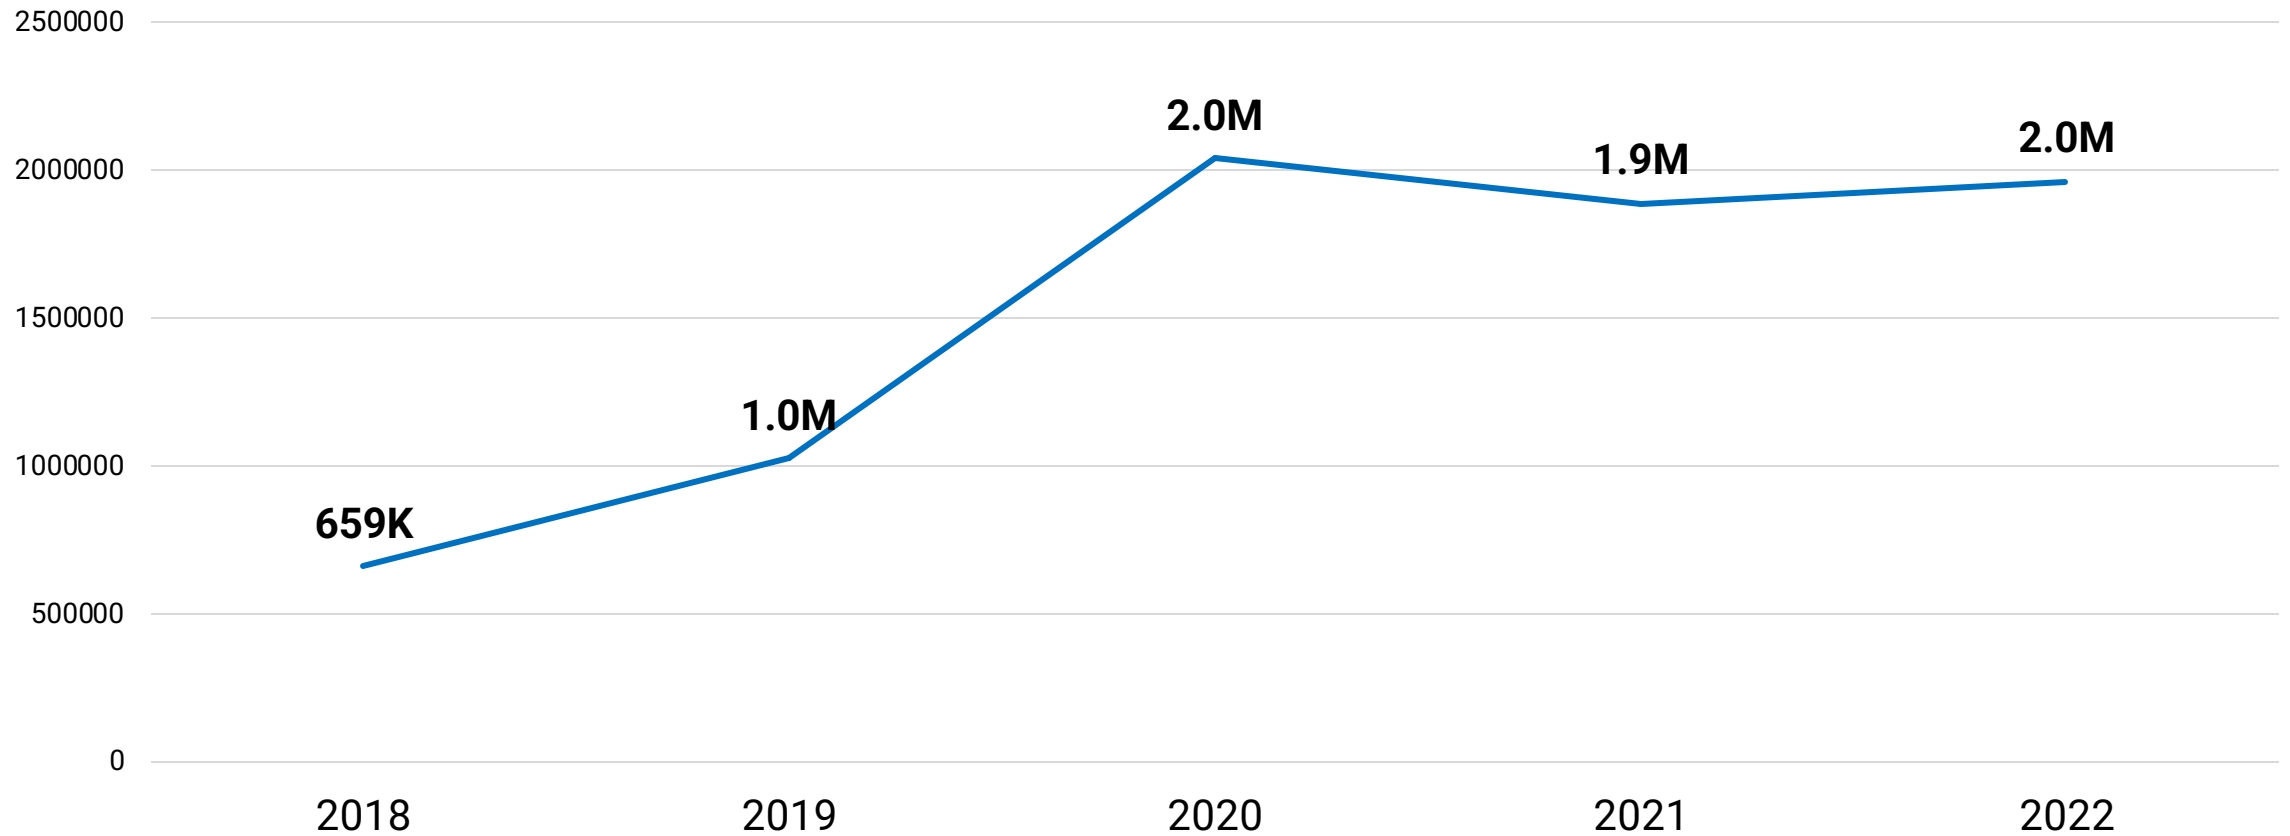

- Includes 1.2M referrals to homeless shelters and diversion programs
- 1.9M referrals to housing expense assistance programs
Sub-category: Referrals to Housing Expense Assistance

Referrals to Homeless Drop-In Centers, Shelters, Diversion, and Assistance Programs

Utilities Assistance

## Utilities assistance referrals continue to increase.

A 2022 follow-up survey conducted in five markets over a 6-month period indicated that 51% of requests were for utility assistance and 63% were unable to obtain needed help.

"By partnering with the United Way, we are reaching additional customers who may not qualify for other assistance programs"
   – Deanna Rodriguez, President/CEO of Entergy New Orleans
Food & Meals

Food referrals have decreased since the spike in 2020 but are still twice as high as pre-pandemic counts.

Ride United: Last Mile Delivery completed 585,409 deliveries to 44,311 households, representing 8.1M meals.

211 IS A VITAL HUMAN SERVICE ACROSS NORTH AMERICA. 24/7 people can contact 211 to access free and confidential community health and human services. 211 provides expert, caring help in more than 180 languages — no matter the situation, the specialists at 211 listen, identify problems, and connect people in need with resources and services in their community that improve their lives. 211 tackles underlying root causes – 211 does more than "patch people through" to agencies. Instead, 211 specialists are trained to identify and address root causes of a client's problem and connect them with a wide range of available resources that meet all the underlying needs. There is no other network in the country that has a similar pulse on America's needs. 211 makes the social services ecosystem more efficient by ensuring people in need are connected to agencies that can help them.

Unmet Needs: Individual instances where no resources are available to meet an inquirer's assessed needs and no referrals can be made. A pattern of individual unmet needs may lead to identification of service gaps at the service delivery system level.

AIRS Standards & Quality Indicators for Professional Information & Referral

Version 9.0. | July 2020

Unmet Needs

- 211 leaders provide information on the top unmet needs in their communities.

- **95%** of 211 leaders indicated unmet needs related to **housing** in their communities.

- Other top categories were utilities assistance (63%) and transportation (46%)

Key Findings

- **Healthcare/COVID-19**: Over the past 5 years, we saw an unprecedented spike in referrals, which has dropped back down as of 2022.

- **Food**: Food referrals spiked during the pandemic, and are beginning to level down, but remain elevated compared to pre-pandemic numbers.

- **Housing**: There has been a steady increase in housing referrals, which merits attention. While other referral categories have returned to pre-pandemic levels, housing referrals continue to increase and represent 1 in 4 of all referrals made. Sub-categories related to housing reflect an increasing focus on homelessness prevention and diversion.
